Puteaux, June 30, 2025: The Blockchain Group (ISIN: FR0011053636, ticker: ALTBG) (the “Company”), listed on Euronext Growth Paris, Europe’s first Bitcoin Treasury Company, holding subsidiaries specialized in Data Intelligence, AI, and decentralized technology consulting and development, confirms the final completion of the subscription by Adam Back of 2,126,565 new ordinary shares at a subscription price of €0.544 per share, for a total amount of ~€1.16 million, as well as of the subscription by TOBAM of 262,605 new ordinary shares at a subscription price of €0.544 per share, for a total amount of ~€0.14 million, under the legal adjustment measures for OCA Tranche 1 holders, enabling the acquisition of 13 BTC for ~€1.19 million. The Company also announces the conversion of BSA 2025-01 into 1,101,175 new ordinary shares for a total amount of ~€0.6 million, enabling the acquisition of 6 BTC for ~€0.5 million. Furthermore, the Company confirms the final completion of the capital increase under the “ATM-type” program with TOBAM, announced on June 24, 2025, at a subscription price of ~€5.085 per share, for a total amount of ~€4.1 million, enabling the acquisition of 41 BTC for ~€3.8 million. Since the beginning of the year, the Group has achieved a ‘BTC Yield’ of ~1,270.7%, a ‘BTC Gain’ of ~508.3 BTC, and a ‘BTC € Gain’ of ~€46.7 million. As of today, The Blockchain Group and its subsidiary The Blockchain Group Luxembourg SA hold a total of 1,788 BTC, with an acquisition value of ~€161.3 million, based on an average price of ~€90,213 per bitcoin. The Company thus reinforces its Bitcoin accumulation strategy while continuing to develop the operational activities of its subsidiaries. As communicated on April 30, 2025, a presentation explaining the Company’s Bitcoin Treasury Company strategy focused on increasing bitcoin per fully diluted share over time is available on its website: <https://www.theblockchain-group.com/investor/news-financial-information/>

Final completion of previously announced operations

On June 12, 2025, the Company announced the subscription by Adam Back of 2,126,565 new ordinary shares at a subscription price of €0.544, for a total amount of €1,156,851.36, as well as the subscription by TOBAM of 262,605 new ordinary shares at a subscription price of €0.544, for a total amount of €142,857.12, as part of the legal adjustment measures for OCA Tranche 1 holders, as stipulated in the terms and conditions of the BSA 2025-01 and disclosed in the press release dated April 7, 2025.

The Company today confirms the final completion of this operation in the proportions set out above.

On April 7, 2025, the Company also announced the free grant of BSA 2025-01 warrants to its shareholders to accelerate its Bitcoin strategy, on the basis of seven BSA 2025-01 warrants for one new ordinary share at a subscription price of €0.544 per share.

The Company hereby confirms the conversion of 7,708,225 BSA 2025-01 warrants into 1,101,175 new ordinary shares of the Company, for a total amount of €599,039.12.

The main terms of the BSA 2025-01 issue were set out in the press release dated April 7, 2025.

On June 24, 2025, the Company also announced its decision, acting pursuant to the twelfth resolution adopted by the general meeting of shareholders on June 10, 2025, to carry out a capital increase for a total amount of €4,071,368.65 (including share premium), through the issuance of 800,690 new ordinary shares at an average subscription price of ~€5.085 per share.

The Company hereby announces the final completion of this operation, resulting in the waiver, in accordance with the Program, of shareholders' preferential subscription rights in favor of the investors to whom the offer was addressed, in the proportions set out below:

Investor	Number of Shares	Rounded Average Price / Share (€)	Amount (€)

- (1) The number of shares on a fully diluted basis includes (i) the total number of ordinary shares outstanding, (ii) the shares that would be issued upon the full conversion of all currently issued convertible bonds of the Company, and (iii) the free shares granted.
- (2) BTC per Fully Diluted Share is calculated by dividing Total BTC Holdings by the Fully Diluted Shares outstanding at the end of each period. The result is then expressed as satoshis (sats) per Fully Diluted Shares outstanding, rounded down. There are 100,000,000 sats in 1 BTC. Each sat represents 0.00000001 BTC, the smallest unit of bitcoin.
- (3) As the BTC Yield is intended to illustrate how the Company finances the acquisition of BTC over a given period, the calculation of the number of shares on a fully diluted basis does not include unexercised BSA warrants, as they do not provide financing to the Company and have no impact on the Company's equity until they are exercised. The Company will provide further communication regarding the exercise of warrants and the resulting BTC acquisitions at a later stage.

Important information about 'BTC Yield', 'BTC Gain', and 'BTC € Gain' KPIs

The Company uses 'BTC Yield', 'BTC Gain' and 'BTC € Gain' as indicators to monitor its Bitcoin Treasury Company strategy. These indicators illustrate the manner in which the Company finances the acquisition of bitcoin in a given period by:

- **'BTC Yield'**: indicator reflecting the percentage change in the ratio of Total BTC Holdings to Fully Diluted Shares outstanding over a given period;
- **'BTC Gain'**: indicator that represents the number of BTC held by the Company at the beginning of a period multiplied by the 'BTC Yield' for such period; and
- **'BTC € Gain'**: indicator representing the euro value of the 'BTC Gain' calculated by multiplying the 'BTC Gain' by the acquisition cost per BTC of the last acquisition of the applicable period. The Company has selected the last acquisition of the applicable period to determine the market price of bitcoin solely for the purpose of facilitating this illustrative calculation.

These indicators will be communicated periodically by the Company as part of its Bitcoin Treasury Company strategy, notably on a half-yearly and annual basis.

When the Company uses these KPIs, it also takes into account the various limitations of these metrics, including that they do not take into account debt and other liabilities and claims on company assets that would be senior to common equity, and that these indicators assume that all indebtedness will be refinanced or, in the case of the Company's (or its subsidiaries') convertible debt instruments, converted into shares of common stock in accordance with their respective terms.

Additionally, 'BTC Yield' is not, and should not be understood as, an operating performance measure or a financial or liquidity measure. In particular, 'BTC Yield' is not equivalent to "yield" in the traditional financial context. It is not a measure of the return on investment the Company's shareholders may have achieved historically or can achieve in the future by purchasing stock of the Company, or a measure of income generated by the Company's operations or its bitcoin holdings, return on investment on its bitcoin holdings, or any other similar financial measure of the performance of its business or assets. 'BTC Gain' and 'BTC € Gain' are not, and should not be understood as, operating performance measures or financial or liquidity measures. In particular, 'BTC Gain' and 'BTC € Gain' are not equivalent to "gain" in the traditional financial context. They also are not measures of the return on investment the Company's shareholders may have achieved historically or can achieve in the future by purchasing stock of the Company, or measures of income generated by the Company's operations or its bitcoin holdings, return on investment on its bitcoin holdings, or any other similar financial measure of the performance of its business or assets. It should also be understood that 'BTC € Gain' does not represent a fair value gain of the Company's bitcoin holdings, and 'BTC € Gain' may be positive during periods when the Company has incurred fair value losses on its bitcoin holdings.

The trading price of the Company's common stock depends on numerous factors in addition to the quantity of bitcoins the Company holds and number of actual or potential shares of its stock outstanding, and as a result, the market value of the Company's shares may trade at a discount or a premium relative to the market value of the bitcoin the Company holds, and neither 'BTC Yield', 'BTC Gain' nor 'BTC € Gain' are indicative or predictive of the trading price of the Company's securities.

As noted above, these KPIs are narrow in their purpose and are used by the Company to assist it in assessing the use of the equity capital, as it pertains to its bitcoin holdings only.

The Company's ability to achieve positive 'BTC Yield', 'BTC Gain', or 'BTC € Gain' may depend on a variety of factors, including its ability to generate profits in excess of its fixed charges and other expenses, as well as factors outside of its control, such as the price of bitcoin, and the availability of financing on favorable terms. Past performance is not indicative of future results.

The presentation of these KPIs does not imply any intention to pay dividends on its common shares in the future. Holding the Company's common shares does not equate to direct ownership of the Bitcoin held by the Company. Investors should rely on the financial statements and other disclosures by the Company. These KPIs are only intended as supplemental metrics for those who understand their purpose and limitations, not as replacements for traditional financial analysis.

Risk factors

The Company reminds that the risk factors related to the Company and to its business are detailed in its 2024 annual financial report, available for free on the Company's website (www.theblockchain-group.com/investor/news-financial-information/). The realization of all or part of these risks could negatively impact the Company's operations, financial position, results, development, or outlook.
